All that's left to do is sort the results so that you can find the team champs by classification.

The screenshot shows a Microsoft Excel spreadsheet titled 'Book2 - Microsoft Excel'. The spreadsheet contains a table with columns A through L. The first row (A1) is a header row with the following labels: 'Place', 'Team', '1st x10', '2nd x8', '3rd x6', '4th x5', '5th x4', '6th x3', '7th x2', '8th x1', and 'Total Pts.'. The data rows follow, with teams listed in column B and their corresponding scores in columns D through J. The 'Total Pts.' column (L) shows the sum of scores for each team. A 'Sort' dialog box is open over the spreadsheet. The 'Sort by' dropdown is set to '(Column C)', which is 'Team'. The 'Sort On' dropdown is set to 'Values', and the 'Order' dropdown is set to 'A to Z'. The 'My data has headers' checkbox is checked. The dialog box also includes buttons for 'Add Level', 'Delete Level', 'Copy Level', and 'Options...'. The spreadsheet data is as follows:
